

TANTRIC STAR

FIRE and AIR

This 2nd form in The 13th Circuit Ceremony is a combination of:

Pyra Sphere

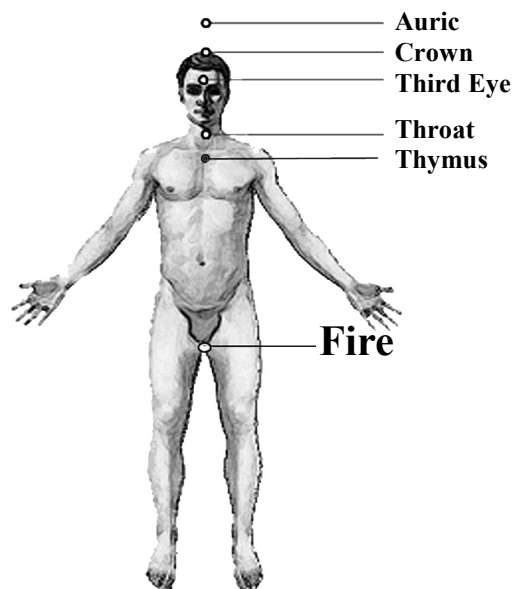

Prana Sphere

The circuits of the Foundation Ceremony activated by the Tantric Star

The Tantric Star is a nesting of 2 Pyra Spheres (tetrahedrons) interlinked, one pointing up and the other down, automatically creating a Prana Sphere (octahedron) in the center. It is the first of three mirror geometries. The Pyra Sphere is the only one that mirrors itself.

Another way to see it is as 8 Pyra Spheres set like stellations around a Prana Sphere. (This form is sometimes called a stellated octahedron), thus there is the geometric expression of both Air and Fire. Because this form is the Alpha geo-structure in our physical manifestation, it also connects and strengthens the thymus gland, responsible for regulating the immune system.
